+8801781182143 mdraselswe@gmail.com https://www.linkedin.com/in/mdraselswe Dhaka, Bangladesh

SUMMARY

Dynamic Frontend Engineer with over 7 years of expertise in building cutting-edge applications with React.js. Passionate about crafting seamless, user-centric interfaces that elevate user experiences. A collaborative team player and a proactive problem-solver, adept at leading high-impact projects and mentoring team members to excel in fast-paced, agile environments.

EXPERIENCE

Senior Software Engineer

Shikho Technologies Bangladesh Ltd

12/2022 - Present Banani, Dhaka Bangladesh

A technology company focused on enhancing learning experiences through digital platforms.

- Led the development of the Bohubrihi website from scratch using cutting-edge technologies like Next.js and GraphQL.
- Built a custom component library to streamline website development.
- Collaborated closely with the design team to ensure a visually appealing and user-friendly interface.
- Implemented responsive designs to guarantee optimal performance across all devices.
- Partnered with the backend team for seamless frontend-backend integration.
- Conducted code reviews and mentored junior developers to uphold high-quality coding standards.

Front End Engineer

Grameen Digital Health (Ex Telenor) of Grameen Telecom Trust

11/2020 - 11/2022 Bashundhara, Dhaka Bangladesh

A digital health service aimed at improving healthcare accessibility through technology.

- Developed the web view components for the Grameen Digital Health app.
- Implemented modern frontend technologies, including React.js, Next.js, and Context API, for various web services, landing pages, and the admin panel.
- Collaborated with product managers to expedite feature releases.
- Enhanced code quality through static code analysis tools (ESLint, Prettier).

Software Engineer

Shohoz Ltd.

08/2019 - 10/2020 Banani, Dhaka Bangladesh

A platform providing on-demand service for food, ticket and transportation.

- Collaborated with developers and clients to meet project requirements and deliver desired functionality.
- Contributed to Shohoz Food Web, Service Panel, and Restaurant Management System.
- Developed reusable React components for Shohoz UI.
- Documented components using Storybook for improved development workflow.

Software Engineer

Shimahin Limited

04/2018 - 07/2019 Banani, Dhaka Bangladesh

A company providing web development and design services.

- Managed website development projects from initial design to completion, ensuring cross-browser and multi-platform compatibility.
- Worked on projects such as the shobHobe dashboard, vendor web app, and landing pages.
- Created reusable React components for the shobHobe UI.
- Utilized Docz for component documentation.

EDUCATION

B.Sc. in Software Engineering

Daffodil International University

04/2014 - 01/2018 Dhanmondi - Bangladesh

KEY ACHIEVEMENTS

Enhanced User Interface

Improved user engagement through significant UI enhancements, creating a more intuitive and visually appealing experience.

Optimized Website Performance

Achieved notable improvements in page load times by implementing advanced optimization techniques, enhancing overall website performance.

Developer Mentoring Success

Successfully mentored a team of junior developers, contributing to their professional growth and readiness for higher responsibilities.

Feature Deployment Efficiency

Delivered numerous new features within tight timelines, accelerating product development and enhancing user satisfaction.

SKILLS

React JS	Next JS	Context	Redux
Rtk Query	Typescript	Rest API	GraphQL
Tailwind CSS	Antd	Material UI	Bootstrap

PROJECTS

Bohubrihi - NextJS • Typescript • GraphQL • Tailwind CSS

Leading skill-learning platform in Bangladesh.

Live Link: <https://rb.gy/fus7nm>

- Utilized modern technologies like **Next.js** and **GraphQL** to build a fast, scalable, and interactive web application.
