PROFESSIONAL SUMMARY

Senior Frontend Engineer with **8+ years** of experience building scalable, high-performance web applications. Specialized in **React.js, Next.js, and TypeScript**, with hands-on experience in frontend architecture, reusable component systems, performance optimization, API integration, and team mentorship. Experienced in leveraging AI-assisted development tools and LLM APIs to improve engineering workflows and product experiences.

WORK EXPERIENCE

12/2022 - Present
Banani, Dhaka, Bangladesh

Senior Software Engineer
Shikho Technologies Bangladesh Ltd
A technology company focused on enhancing learning experiences through digital platforms.

- Led frontend development of Shikho Shop and other customer-facing platforms **serving 3M+ students and 4.5M+ app downloads**, using Next.js, TypeScript and GraphQL.
- **Created a reusable component** library adopted across **4 latest products**, making new UI delivery 10x faster and standardizing frontend patterns.
- **Integrated 2 third-party services (Grameenphone, Ami Probashi)** and AI/LLM-powered workflows across production applications, collaborating with product, design and engineering teams.
- **Mentored 3+** frontend engineers through code reviews, technical guidance, and Agile development practices.

11/2020 - 11/2022
Bashundhara, Dhaka, Bangladesh

Front End Engineer
Grameen Digital Health (Ex Telenor) of Grameen Telecom Trust
A digital health service aimed at improving healthcare accessibility through technology.

- Enhanced 28 core web components for **digital health products**, delivering responsive and consistent experiences across mobile and desktop devices.
- **Migrated complex application state** to React Context API, cutting redundant re-renders by 85%+ and simplifying state management.
- **Integrated automated static code analysis** into the development workflow, reducing production bugs 10x versus before.

08/2019 - 10/2020
Banani, Dhaka, Bangladesh

Software Engineer
Shohoz Ltd.
A platform providing on-demand food, ticket and transportation services.

- Developed core features for Shohoz Food Web using reusable React components, **serving 1,000+ partner restaurants** across Dhaka and select cities.
- Standardized developer documentation with Storybook, **documenting 40+ reusable components** and speeding up developer onboarding.

04/2018 - 07/2019
Banani, Dhaka, Bangladesh

Software Engineer
Shimahin Limited
A company providing web development and design services.

- **Improved cross-browser compatibility with multi-platform testing** and custom CSS/JavaScript polyfills, supporting 4+ major browsers including legacy versions.
- Designed a scalable UI library of **25 reusable React components used by 3 projects**, improving development consistency and establishing shared frontend pattern

EDUCATION

04/2014 - 01/2018
Dhanmondi, Bangladesh

B.Sc. in Software Engineering (CGPA: 3.20/4.00)
Daffodil International University (DIU)

SKILLS

Frontend
React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Ant Design, Material UI, Headless UI, Framer Motion

Backend
Node.js, Express.js, MySQL, PostgreSQL, MongoDB

State & API
Redux Toolkit, Zustand, TanStack Query, RTK Query, Context API, GraphQL, Apollo Client, REST APIs

AI & Developer Tools
Cursor, Claude Code, Gemini CLI, MCP, LLM APIs

Tools
Storybook, Docz, Strapi, Apito, Prettier, ESLint, NPM, Git, Figma

Leadership
Team Mentoring, Code Reviews, Agile/Scrum, Technical Leadership

PROJECTS

GeduShop Frontend / E-Commerce Web Application

High-performance e-commerce web application for children's toys and products

Tech Stack: React, Next.js, TypeScript, Tailwind CSS, Cloudflare Pages, Wrangler, Node.js
Live Link: https://shorturl.at/YiBld
Source Code Link: https://shorturl.at/u5uz7

- Developed and optimized a **high-performance e-commerce** frontend with Next.js 16 and React 19, raising the Lighthouse performance score from 72 to 95.
- **Delivered 20 responsive routes and 69 reusable components** using Tailwind CSS v4 and Lucide React icons, giving a consistent mobile-first UI across all pages.
- Automated build and edge deployment to **Cloudflare Pages via Wrangler** and OpenNext CLI, reducing release time from ~15 minutes to under 2 minutes.
- Implemented 4 custom security validation tests and ESLint-enforced linting across 130+ source files, keeping the codebase production-ready over 110+ commits.

GeduSuite / Multi-Tenant Small-Business ERP

High-performance e-commerce frontend web application for children's toys and products.

Tech Stack: Next.js, TypeScript, PostgreSQL, Prisma, NextAuth.js, Tailwind CSS, Vercel
Live Link: https://shorturl.at/pD0C2
Source Code Link: https://shorturl.at/L7VZv

- Architected and shipped a **multi-tenant ERP and PWA** with **45+ pages and 60+ database models**, covering procurement, courier reconciliation, and role-based access control across 5 user roles.
- Engineered ad-spend attribution, W**ooCommerce lead sync, and profit-sharing tracking**, cutting manual spreadsheet work by ~10 hours/week and consolidating 3 separate sheets into 1 ledger.
- **Automated deployment with Vercel CI/CD**, running **60+ Prisma migrations** safely, and added scheduled Google Drive/Sheets backups so data is protected without manual effort.

CleanCV

ATS-friendly CV and resume builder with multi-template rendering and dual PDF export.

Tech Stack: Next.js, TypeScript, Drizzle ORM, Tailwind CSS, Puppeteer, Vitest, Zustand
Live Link: https://shorturl.at/AqXMb
Source Code Link: https://shorturl.at/3ErWo

- Built an **ATS-friendly resume builder** with Next.js, TypeScript and Drizzle ORM, scoring every CV against 31 parsing, content and keyword rules with point-by-point fixes.
- Engineered dual PDF export with headless Chrome and Puppeteer, **validated by 390+ automated tests** that confirm text extraction and round-trip data survival across 10 templates.
- Implemented client-side CV import for **3 file formats (PDF, DOCX and scanned images) using PDF.js**, Mammoth and Tesseract.js, keeping personal data on the user's device by default.
